HEXAGHEN™

PHARMADYNAMIC IGF-1 OPTIMIZER*

HEXAGHEN is the first ever orally effective IGF-1 activator made possible through the utilization of a unique combination of highly specialized actives, which includes a GHRP-2 hexapeptide and an IGFBP-3 inhibitor. These advanced compounds are administered in a patent pending sub-buccal Fastsorb tablet delivery, which is critical for these potent yet fragile compounds to be absorbed directly into the bloodstream, bypass the gastrointestinal tract and first-pass metabolism in the liver thereby preserving their activity and effectiveness as an IGF-1 Activator.*

IGF-1 is extremely anabolic and is proclaimed by scientists to be the critical mediator of muscle growth as it has the unique ability to stimulate both muscle cell hyperplasia (an increase in number of muscle cells) and muscle hypertrophy (muscle cell growth). So, IGF-1 not only increases the size of existing muscle cells, it also proliferates the formation of new muscle cells. Now, with the development of HEXAGHEN, you can experience the amazing muscle building effects of IGF-1. HEXAGHEN is clearly the most exciting muscle-building breakthrough on the bodybuilding circuit today.*

LABORATORY TESTED*

Scientists at MuscleMeds conducted laboratory tests to validate HEXAGHEN's effectiveness in raising IGF-1 levels in a doctor controlled medical trial. Laboratory test results revealed that subjects showed increases in free IGF-1 of up to 12,000 ng/dl after only two weeks of use.*

HEXAGHEN—Creating the Next Generation of Bodybuilding Freaks!

Directions: Hexaghen Fastsorb™ tablets are designed to be dissolved under your tongue. Hexaghen should be taken 30 minutes before bedtime. Place 2 Hexaghen Fastsorb™ tablets under your tongue and let dissolve completely, then swallow.

DO NOT EXCEED 2 TABLETS PER DAY.

6 Week Cycling Instructions

2 Weeks on (14 days)

1 Week off (7 days)

2 Weeks on (14 days)

1 Week off (7 days)

(Then Repeat Cycle)

Supplement Facts

Serving Size: 2 Tablets Serving Per Box: 28

	Amount Per Serving	% Daily Value
HEXAGHEN	12.6 mg	†
<small>[Patent Pending IGF-1 Complex of: Ketonic Isomers(cis and trans-4, 17(20)-pregnadiene-3,16-dione), GHRP-2 Hexapeptide Acetate]</small>		

† Daily value not established.

Other ingredients: lactose, mannitol, methylcarboxy cellulose, calcium carboxycellulose, phosphatidyl choline, phosphatidyl serine, palmitic acid, EDTA natural and artificial citrus flavors, FD&C Red 40.

WARNING: NOT FOR USE BY INDIVIDUALS UNDER THE AGE OF 18 YEARS. DO NOT USE IF PREGNANT OR NURSING. Consult a physician or licensed qualified health care professional before using this product. Do not exceed recommended serving. Discontinue use and call a physician or licensed qualified health care professional immediately if you experience any adverse effects. To report any adverse event call 1-800-332-1088. KEEP OUT OF REACH OF CHILDREN.

- Keep out of reach of children.
- Store at 15-30C (59-86F).
- Protect from heat, light and moisture.
- Do not purchase if seal is broken.
